A WORD FROM THE CHAIRMAN

In 2015, BUSSQ celebrated 30 years of helping secure the financial futures of our members.

During those thirty years we haven't wavered from our priorities of delivering strong long term returns to our members and the 2014/2015 financial year was no exception.

We saw a return of 9.8% in the BUSSQ Balanced Growth option, which was higher than the *SuperRatings* Fund average of 9.33% for the same period.

Our Pension Balanced Growth option returned 10.65% which also outperformed the *SuperRatings* Pension Fund average of 10.49% for the financial year.

Our consistently solid performance has been recognised by *SuperRatings* once again and 2014 marked the seventh year in a row that BUSSQ was awarded the Platinum rating for our Super and Pension products.

We work to support our members in the building, construction and civil industries, not only by delivering solid returns and helpful customer service, but also through our investments.

BUSSQ invests in a wide range of infrastructure and property developments. We invest heavily in Queensland which creates opportunities for the industry and our members.

You may have even visited one of our investments over the last year such as the Robina Town Centre, Logan Hyperdome or Pacific Fair on the Gold Coast or one of our airports like Gold Coast, Townsville, Mackay, Cairns or Mt Isa.

Our portfolio is diversified to manage risk and we also have investments in hospitals, toll roads, ports and cattle and sheep stations throughout Australia.

This year we expanded our operations into the Northern Territory and we now have an office in Darwin. Hopefully we can expand our operations even further in the coming years.

We're always looking to support the industry in whatever way we can, such as raising money for MATES in Construction, a charity that looks at improving the mental health and wellbeing of workers in the construction industry.

We held two very successful Golf Day fundraisers in Brisbane and Townsville over the last financial year which raised more than \$35,000 to help MATES in Construction continue their great work within the industry.

I'd like to thank the BUSSQ team for their hard work and dedication over the last financial year and I look forward to what the next year will bring for the Fund.

CHILD INCOME ACCOUNT

On 1 October 2014 BUSSQ launched the Child Income account. The Child Income account, is a simple, tax-effective income for dependent children when a parent dies prematurely. Proceeds from the superannuation death benefit, usually being the superannuation balance and any life insurance balance, moves into the Child Income account. It then pays a regular (usually once or twice-monthly) income stream to the carer of the child to help to pay for everyday living costs to raise the child.

It is created as a result of a death of a BUSSQ member, where the BUSSQ Claims Committee will recommend that this account is the best course of action for the beneficiary. Prior to this, claims were paid to the Public Trust Office. After receiving feedback that this was not the ideal solution for a carer to obtain funds for the child, we created the Child Income account.

INVESTMENT OBJECTIVE

The broad investment objective of the Trustee is to maximise investment returns without taking unacceptable risks. In addition, the Trustee has set an objective for each investment option. In other words, the Trustee has set a specific target performance for each option and these are set out in the tables on the following pages. In order to achieve its investment objectives, the Trustee has established a strategy for each option. The Trustee aims to invest in various asset classes for each investment choice at certain levels, called the 'target asset allocation' and these are also set out in the tables on the following pages.

Note that these allocations will be the normal mix of asset classes for each option, but the actual investment allocations may differ slightly from the target allocation, as the Trustee needs the flexibility to respond to conditions in the market. The Trustee will not, however, invest outside certain asset class ranges, which have been established with the help of a professional investment consultant. The Fund's Trustee constantly monitors investments and may vary the asset mix during the year in accordance with market conditions to help achieve a steady and consistent return.

In addition, professional investment managers are appointed to manage the funds within those asset class ranges. They are required to report to the Trustee regularly and are continuously monitored. Investing in a range of asset classes with a range of specialist investment managers offers diversification and in turn reduces investment risk.

2014/2015 INVESTMENT REPORT

The 2014/2015 was a rewarding year for investors in growth type assets backing up very strong returns from the last two years.

Low interest rates and low bond rates still prevailed over the last financial year as investors continued to chase better returns in riskier assets.

This continued to drive asset prices higher, resulting in strong returns.

The main market drivers were:

- Continued high government debt levels in the US, Europe and Japan. This provides excess market liquidity to fund the purchase of risky assets.
- Continuing slow world growth.
- Continuing low interest rates and inflation.
- The end of the resources boom which was driving the Australian economy. However, building and construction has picked up through an explosion in multi-residential development.

Equity market returns were modest for the year. The BUSSQ Australian share portfolio returned 7% but our global shares portfolio returned 20% before tax, mostly due to foreign currency gains.

The pre-tax performance of our other portfolios was a mixed result:

- Infrastructure was up 9% with a big contribution from our LNG terminal in Freeport Texas.
- Private Equity was up 10% which was a strong result.
- Fixed Interest returned 3.6%
- Cash returned 2.6%.
- Property investments were up 10% which was a solid result.

Since 30 June 2015, investment markets have been quite volatile and quite negative in August and September. However, the benefits of diversification are paying off with the BUSSQ Balanced Growth option still positive for the three months to 30 September 2015.

Following three years of strong returns, we are taking a cautious approach as world growth is still very slow.

MEASURING RISK

A standard risk measure for investment options has been developed for super funds to make it easier for you to compare investments options (both within and across super funds). The Standard Risk Measure is based on industry guidance to allow you to compare investment options that are expected to deliver a similar number of negative annual returns over any 20 year period. There are seven risk bands and they are as follows:

RISK BAND	RISK LABEL	ESTIMATED NUMBER OF NEGATIVE ANNUAL RETURNS OVER ANY 20 YEAR PERIOD
1	Very low	Less than 0.5
2	Low	0.5 to less than 1
3	Low to medium	1 to less than 2
4	Medium	2 to less than 3
5	Medium to high	3 to less than 4
6	High	4 to less than 6
7	Very high	6 or greater

The Standard Risk Measure is not a complete assessment of all forms of investment risk, for instance it does not detail what the size of a negative return could be or the potential for a positive return to be less than you may require to meet your objectives. Further, it does not take into account the impact of administration fees and tax on the likelihood of a negative return.

You should still ensure you are comfortable with the risks and potential losses associated with your chosen investment option(s).

The use of the Standard Risk Measure is endorsed and strongly recommended by the Australian Prudential Regulatory Authority (APRA), Australian Securities and Investments Commission (ASIC), Association of Superannuation Funds of Australia (ASFA) and the Financial Services Council (FSC) for all Australian super funds.

[^] These options did not exist prior to March 2011, hence no rates are shown.

* The frequency of a negative return is based on the standard Risk Measure Guidance for trustee's recommended by APRA, ASIC, ASFA and FSC and is explained on this page.

WHICH OPTIONS CAN I CHOOSE FROM?

During the period 1 July 2014 to 30 June 2015 members in the MySuper Fund were able to invest in the MySuper Balanced Growth. Members in Premium Choice and in a BUSSQ Pension can invest in: Balanced Growth, Defensive, High Growth, Cash, Diversified Fixed Interest, Australian Shares, Australian (Larger Companies) Shares, Australian (Small Companies) Shares, International Shares (Hedged), International (Emerging Markets) Shares and All Shares.

SWITCHING YOUR INVESTMENT STRATEGY

If you are a member of the Premium Choice product or Pension product BUSSQ gives you the flexibility to switch your investment option, or mix of options, at any time. There is no charge to change your investment options.

If you are in the MySuper product and would like to make an investment switch, you will have to move to the Premium Choice product. Unit prices are declared weekly. All switch requests received in the period 6.01pm Friday to 6pm the next Friday (^AEST/^AEDT), will be processed with an effective date as at the next Wednesday, following the declaration of the weekly unit price. There may be a delay if a public holiday falls on the Monday or Tuesday. There are two ways to change your investment selection:

1. Online by logging into **MemberAccess** on **bussq.com.au**.
2. Completing a *Member Investment Choice* form.
This form can be obtained on the BUSSQ website **bussq.com.au**, or by phoning BUSSQ on **1800 MY BUSSQ (1800 692 877)**.

If you switch using a *Member Investment Choice* form, you will receive a letter confirming your switch once your form has been processed. Please read it carefully to verify your investment switch has been actioned in accordance with your instructions. Should you identify an issue with your investment switch, or you do not receive a confirmation letter, please contact us immediately on **1800 MY BUSSQ (1800 692 877)** to confirm your switch instruction.

If you switch online, you will receive confirmation that your instruction has been submitted on the screen once you click on the confirm button.

Investment choices made on a *Membership Application* form will not be subject to the weekly switching cycle procedure, and will be actioned using the unit price(s) in force at the time of processing, as per all other applications and redemptions. We cannot accept investment switch requests received verbally or in written correspondence. The Trustee does not accept verbal notifications or notifications not done in the prescribed manner.

OTHER INVESTMENT INFORMATION

DERIVATIVES

The Trustee and BUSSQ's investment managers has the discretion to invest in derivative financial instruments from time to time. This is generally done to either hedge a particular risk or to immediately rebalance the investment portfolio in a quick and efficient manner.

The derivatives charge ratio represents the market value of the assets of the Fund (other than cash) that are subject to a charge in relation to a derivatives contract, as a percentage of the market value of all the assets of the Fund.

BUSSQ monitors the derivatives charge ratio, and is required to disclose in the annual report if during the financial year the derivatives charge ratio exceeds 5%.

The derivatives charge ratio for the Fund did exceed 5% during the financial year ended 30 June 2015, with the highest derivatives charge ratio being 7.28%. The derivatives charge ratio at 30 June 2015 was 4.66%.

The derivatives charge ratio exceeded the 5% level for a majority of the reporting period, to a maximum of 7.28% in July 2014. The use of derivatives is at the discretion of BUSSQ's Investment Committee in consultation with BUSSQ's investment advisor Frontier Advisors. The primary purpose derivatives are used is to help protect the Fund from downside risk and market volatility. They are also utilised to rebalance portfolios back to an agreed asset allocation rather than physically transacting on the Fund's investments which may trigger CGT events.

RESERVING POLICY

For the 2014/2015 financial year, the Trustee maintained an administration reserve consisting of a general reserve and an Operational Risk Financial Reserve.

From 30 June 2015, the optimum reserve level is 0.4%. Included in this optimum level will be an Operational Risk Financial Reserve of 0.25%. The purpose of the general reserve is to fund contingency expenses such as taxation adjustments and other calculation variances.

The Operational Risk Financial Reserve is to cover the risk of loss due to failed internal operational processes or systems.

The general reserve can vary from the optimum level. The Operational Risk Financial Reserve will be maintained in a separate reserve account.

The reserve account is maintained from:

- Any excess of investment earnings over returns credited to members accounts, and
- Any surplus of fees above the Fund's operating costs.

The following table summarises the movement in reserves over the past three years:

BALANCE AS AT 30 JUNE	
2015	\$13,969,194
2014	\$12,712,673
2013	\$8,155,472

The Fund invests in the BUSSQ Pooled Superannuation Trust (PST) which will target an Operational Risk Financial Reserve of 0.1% to be built up over three years.

WEEKLY UNIT PRICES

How the unit value is determined

The unit value is determined by taking into account the change in value of investments within the relevant investment option and deducting the investment and operations management charges and tax. The unit price is currently calculated weekly. However, in future the unit price may be calculated more frequently and you will be advised beforehand.

In times of high volatility, the Trustee reserves the right to calculate units more frequently or suspend the calculation of units.

Will the value of units always increase?

The nature of investment markets means that the value of units can rise or fall. The unit price reflects the performance of the investments in the option(s) chosen, after any investment charges have been deducted. That is why it is important for members to choose an investment option that they feel comfortable with, as different options have different levels of volatility. Financial advice is available if members require assistance.

When a member makes withdrawals from an account, this means they are really withdrawing a number of units.

LABOUR STANDARDS AND ENVIRONMENTAL, SOCIAL AND ETHICAL CONSIDERATIONS

BUSSQ has a policy to take account of labour standards, environmental, social and ethical considerations when selecting, retaining or redeeming the investments of BUSSQ.

However, investments and investment managers are selected primarily on their ability to contribute toward the achievement of BUSSQ's investment objectives.

FEES AND OTHER COSTS

BUSSQ's Product Disclosure Statements (PDS) give full explanations of all fees and other costs that you may be charged. Please be sure to read the PDS applicable to your membership. Current PDS's are available on our website at bussq.com.au or we can mail one to you at your request. Fees and costs may be deducted from your account, from the returns on your investment or from the Fund assets as a whole. Taxes and insurance costs are also set out in the PDS. OTHER DIRECT CHARGES AGAINST MEMBERS' ACCOUNTS

Contributions tax

Employer contributions and voluntary contributions for which members claim a tax deduction are taxed at 15 per cent. This tax is deducted from members' accounts at the end of each relevant month. When the Fund calculates the overall contributions tax to pay to the ATO, administration fees and insurance premiums are claimed as a deduction. The benefit of this is passed on to all members when setting the administration and insurance deductions.

Superannuation surcharge tax

The surcharge was abolished effective 1 July 2005. However, the Fund will continue to receive surcharge assessments from the Australian Taxation Office (ATO) in respect of liabilities that relate to financial years prior to 1 July 2005. As with past practice, the Fund will debit any surcharge amount from members' accounts on receipt of surcharge assessments from the ATO. Any amounts paid to the ATO are deducted directly from your account and will be shown on your Annual Benefit Statement.

OBJECTING TO YOUR ASSESSMENT

If you have a complaint about any information that the Fund sends to the ATO, you should first make a formal complaint in writing through the Fund's enquiry and complaints procedure (please refer to page 23 for contact details).

If you have an objection to a surcharge tax assessment, you can lodge an appeal with the ATO by calling **13 10 20**. If your complaint cannot be resolved to your satisfaction, you can then lodge a complaint with the Superannuation Complaints Tribunal (SCT).

The SCT is an independent body set up by the Federal Government to assist members in resolving complaints. The SCT can only assist you after you have first attempted to resolve your concern with BUSSQ. You can contact the SCT on **1300 884 114**.

WHAT TO DO IF YOU HAVE ANY QUESTIONS OR COMPLAINTS

BUSSQ can help if you have a question about your super. If you are not happy with any aspect of BUSSQ and wish to make a formal complaint, you should write to:

The Complaints Officer
BUSSQ
GPO Box 2775
Brisbane QLD 4001

The Complaints Officer will investigate your complaint on your behalf and write to inform you of the results of that investigation within 90 days.

If the matter is not resolved to your satisfaction, you may appeal to the Superannuation Complaints Tribunal (SCT). The SCT is an independent body set up by the Government to help members or their beneficiaries resolve superannuation complaints. It is a free service. Before you contact them, however, you must first try to resolve the issue through BUSSQ and the Trustee.

The SCT will only handle certain types of complaints and time limits may apply for lodging certain types of complaints. If the SCT accepts your complaint, it will try to help you and the Trustee reach a mutual agreement through conciliation. If this is not successful, the SCT will make a decision that is binding on all parties.

For more information on this process and to find out whether the tribunal can handle your complaint, you should first call the SCT on **1300 884 114** (for the cost of a local call) or write to the:

ARREARS POLICY

The Fund takes its responsibility to ensure that members receive their legislated or Enterprise Bargaining Agreement (EBA) entitlements very seriously. The Fund uses a process of reminder letters and telephone calls to follow up employers who have missed contributions. If contributions remain unpaid, the Fund refers the matter to either the relevant union where an EBA is in place, or to you, so that you can make a complaint to the Australian Taxation Office. The Fund will also take legal action against employers where applicable. However, the Fund takes great care to protect members' personal data in these processes. The Fund also has a service to assist members to follow up unpaid superannuation. Please call the Fund office on **(07) 3369 1111** if you require assistance.

PRIVACY STATEMENT

Protecting personal information has always been important to us, but the recently enacted Privacy Amendment (Enhancing Privacy Protection) Act 2012 (Cth) and the Privacy Act 1988 (Cth) ('the Act') means that we have further obligations in relation to protecting your personal information. The Act, in accordance with Australian Privacy Principles, determines how we must handle personal information.

This is a summary of BUSSQ's policy on the management, collection, security, integrity, disclosure of and access to personal information about members.

Personal Information kept for the purpose of administering superannuation funds.

INFORMATION	PURPOSE FOR COLLECTION
Member's name and address and other contact details, date of birth of birth and employment data	Collected for identification, allocation of trust money, distribution of legislated reporting requirements and information concerning fund operations. Additionally, certain information may be required to facilitate calculation of insurance or other benefits. This information is collected either directly from members or from employers when a member joins the fund, as allowed by superannuation legislation.
Superannuation Account details	Calculated, reported and stored as required by the SIS Act and Tax legislation. Contributed amounts and benefit payments are reported to the ATO as required by legislation and the prescribed format.
Benefit Payments	The benefit payment details are reported to the ATO. This information is used to record tax deducted from the member's superannuation benefit. Personal account details are collected for the payment of a benefit. BUSSQ also has obligations under Australian Government Anti-Money Laundering and Counter-Terrorism Financing provisions and may be required to provide information about your account to AUSTRAC. Should this be the case, we are unable, by law, to advise you that this has occurred.
Tax File Number (TFN)	Collected and stored in accordance with the Act, Tax File Number rules 2015 and the Tax legislation. This information is reported to the ATO as required by legislation affecting the administration of superannuation funds. BUSSQ normally collects this information through member applications and other forms, but may also collect information from a member's employer, the taxation office or through direct contact with members or from the member's employer. It can also be used to find other superannuation accounts in your name.
Evidence of Health	When assessing a member's eligibility for insurance cover or in assessing an insurance claim, additional information may be collected from medical practitioners and from current and previous employers. Information collected for insurance purposes will normally only be disclosed to the Fund's insurer. However, where a member may make a total and permanent disablement claim, information might then be disclosed to medical practitioners and other experts nominated by the Fund's insurer. In addition, if there is any dispute about a member's entitlement, BUSSQ or the administrator or the insurer may disclose information about the member to other advisers (e.g. legal advisers).

This above information is required in order to process each member's application and administer their benefits. We may not be able to process your application if the information is not provided. Over time this information is supplemented with financial and other information necessary to administer the member's account.

PRIVACY STATEMENT (CONTINUED)

Disclosure of information

A significant number of members of BUSSQ are also members of Building Employees Redundancy Trust (BERT) and Construction Income Protection Queensland (CIPQ). BUSSQ may conduct a database matching process with BERT and CIPQ twice yearly to ensure each organisation has the most up-to-date address for people who are members of more than one of them. Where the database search shows a different address for the same person, each organisation adopts the most recent address. The database matching process means that each member's address on BUSSQ's records is disclosed to BERT or CIPQ. If you do not want BUSSQ to provide such information to BERT, CIPQ or MIC please request that you do not want such information to be disclosed by contacting BUSSQ on **1800 MY BUSSQ (1800 692 877)**, or use our email facility on the website **www.bussq.com.au**.

If you increase your insurance or have a claim, our insurers may disclose information to recipients (including service providers and related companies) which are located outside Australia and/or not established in or do not carry on business in Australia. **In certain instances, BUSSQ may provide personal information to mail houses, auditors, lawyers and other consultants.**

We may use your information to tell you about products and services offered to BUSSQ members by other companies. Your information may be used by BUSSQ to enable us to inform you about new and existing products and services that will enhance our relationship with you. If you provide us with your address or email address, we may use it to send our regular communications such as updates on new and existing products and services. If you do not want to receive such communication from BUSSQ please request that you do not wish to receive such information by contacting BUSSQ on **1800 MY BUSSQ (1800 692 877)**, or use our email facility on the website **www.bussq.com.au**.

BUSSQ believes it is important that contributions are paid regularly. Any late payments are identified so steps can be taken to recover late contributions. As part of the

process of monitoring contributions, BUSSQ, from time to time, supplies Fund Sponsors with information about the names of members employed by particular employers who are working on sites where an award, industrial agreement or enterprise bargain agreement is in place as well as the amount of contributions that have been made for them over a period of time. **Member personal details may be updated from information provided by the Unions.**

If you do not want BUSSQ to provide such information to the Fund Sponsor please request that you do not want such information to be disclosed by contacting BUSSQ on **1800 MY BUSSQ (1800 692 877)**, or use our email facility on the website **www.bussq.com.au**.

Destruction of Information

When we no longer require the personal information we hold about you, we will take all reasonable and practicable steps to de-identify or destroy the information in a secure manner. Alternatively, where that is not practicable we will take reasonable steps to protect information from misuse or unauthorised disclosure by putting the information beyond reasonable use.

TRUST DEED

The Trust Deed is a legal document that sets out how the Fund is to be operated. The Trust Deed must also operate within the superannuation legislation.

TEMPORARY RESIDENTS DEPARTING AUSTRALIA

From 1 July 2002, if you entered Australia on an eligible temporary resident's visa and have subsequently permanently departed Australia, you are able to claim payment of any superannuation you may have accumulated. You are unable to apply for the payment of your benefit until after you have permanently departed Australia. Tax will be deducted before payment of your benefit.

If you do not claim your monies within six months of leaving Australia or expiry of your visa, we are required to transfer the monies to the Australian Taxation Office (ATO). The ATO will not pay interest on these monies. Once your monies have been transferred to the ATO, you must contact the ATO should you wish to make a claim. Under relief granted by the Australian Securities and Investments Commission (ASIC), BUSSQ is not obliged to advise you when monies have been transferred or provide an exit statement.

Australian citizens who permanently depart Australia are not eligible to claim their benefits under this condition. New Zealand citizens who have been working temporarily in Australia are also not eligible when they leave Australia.

Further information regarding this can be found on the ATO website (**ato.gov.au**).
